

## Substances of Very High Concerns (SVHC) EU REACH Candidate<sup>1</sup> & Authorisation Lists<sup>2</sup>

Flint Group Europe submits this letter in response to the requested certification for non-printing ink or coating products. The blankets and bars manufactured by Flint Group are considered “articles” under EU REACH Regulation<sup>3</sup> rather than chemical substances or mixtures. When used as intended, these articles are not expected to release chemicals at levels that would adversely affect your printed products.

In accordance with Flint Group Europe policy, the articles and their components do not contain any Substances of Very High Concern (SVHC) above 0.1% (w/w), as set out in the current Candidate List last updated on 4 February 2026 or the current Authorisation List of the EU REACH Regulation.

*This document is valid without a signature.*

*The aim of regulatory documents is to inform and advise our customers. The information provided herein is correct as to the best of Flint Group’s knowledge as of this date. Recognize that traces of ubiquitously occurring impurities cannot be excluded. Raw material supplier data, collected by Flint Group’s regulatory compliance program, has been used to evaluate the statements made in this document; specific analysis may not have been conducted.*

*As the application and the specific conditions of use are not under the control of Flint Group, the information provided does not constitute a guarantee of any kind. The performance of the product and its suitability to a specific customer application depend on the particular conditions of use and the printed materials. Customers must ensure each product meets all applicable criteria prior to product use. There are no implied warranties of merchantability or fitness for the purpose of the product or products described herein.*
